## WHO WE ARE

Granstone is a premier home renovation and stone countertop company based in Ottawa, dedicated to transforming homes with exceptional craftsmanship and attention to detail. Specializing in custom renovations for kitchens, bathrooms, and basements, as well as new builds and custom countertop services, Granstone offers a complete, in-house service experience—from design and material selection to fabrication and installation.

## WHAT SETS US APART

**In house process:** Handling your project from start to finish with our dedicated in-house team.

**Customer-Focused:** Tailored solutions designed to meet your unique needs.

**Experience You Can Trust:** Over a decade of expertise in renovations and construction.

**Unmatched Quality:** Premium materials and craftsmanship in every project.

# IN-HOUSE EXPERTISE

At Granstone, we take pride in handling your project from start to finish with our dedicated in-house team. Unlike many competitors we minimize subcontracting, ensuring seamless communication, consistent quality, and timely delivery.

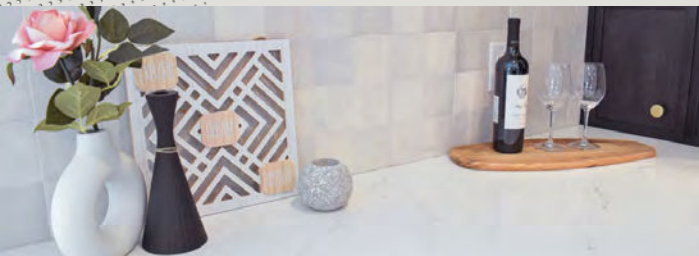

## What This Means for You:

**Consistency and Control:** With our in-house professionals managing each aspect of your project, we keep strict quality control and attention to detail.

**Expertise You Can Trust:** From initial design and meticulous planning to expert construction and the final finishing touches, our dedicated team is committed to transforming your vision into reality.

**Efficiency and Timeliness:** Our streamlined process ensures projects are completed on schedule without unnecessary delays.

**Clear Communication:** A single, dedicated team ensures seamless collaboration and eliminates the risk of miscommunication that often arises when dealing with multiple contractors.

# OUR SERVICES

## Custom Countertops

We specialize in crafting high-quality countertops that combine beauty, durability, and functionality. Using materials like quartz, granite, and marble, we tailor every countertop to fit your style and space perfectly.

## Renovations

Transform your home with Granstone's renovation expertise. From small upgrades to complete makeovers, we reimagine spaces to meet your needs and reflect your style.

## Landscaping

Enhance your property's exterior with landscaping solutions that combine beauty and functionality. Our in-house team designs and constructs outdoor spaces that make the most of your yard.

## Custom Homes

Realize your dream home with Granstone's custom home building services. We guide you through every stage, from design to construction, creating a space uniquely yours.

# OUR RENOVATION PROCESS

## CONSULTATION

We start with an in-depth consultation to understand your vision, needs, and budget for your custom home. During this phase, we discuss your lifestyle, design preferences, and must-have features while assessing the lot or space where your dream home will take shape.

## DESIGN & PLANNING

Our design team collaborates with you to create a personalized home plan. This includes architectural designs, interior layouts, and material selections tailored to your needs. We also provide detailed timelines and budgets to ensure transparency throughout the process.

## APPROVAL & AGREEMENT

Once the design is complete, we review it with you for feedback and make any necessary adjustments. After your approval, we finalize the agreement, covering all project details, timelines, and costs, to ensure everyone is aligned before construction begins.

## CONSTRUCTION & COMPLETION

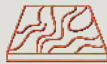

Our skilled construction team brings your vision to life with expert craftsmanship and attention to detail. From laying the foundation to the finishing touches, we ensure quality at every stage. Once complete, you can move into and enjoy your beautiful home!

# OUR COUNTERTOP PROCESS

## SELECTING YOUR STONE

The first step in the countertop process will be to come visit our showroom.

Please bring the measurements of your project. The showroom includes the various colors of countertops as well as samples of sinks, faucets and backsplashes. We will be happy to work with you to help you select the perfect color for your room and your budget.

## FABRICATION

This is the exciting part of a new countertop installation, it's where it all begins.

We require 3-4 days to fabricate and prepare the granite for installation. This process is completed in our workshop to minimize dust and interruption. If we are using a slab from one of our out of town suppliers, we may require an additional 4-5 days for delivery.

## TAKING MEASUREMENTS

Our all-inclusive option includes visiting your home for measurements.

We use in-house laser templating to ensure precise measurements for your countertops and backsplashes, providing a perfect fit for your space. Please consult our installation checklist which outlines everything you'll need to do ahead of the appointment.

## INSTALLATION

At this stage, your custom countertops have been carefully prepared and ready for installation.

Our expert installers carefully place and secure your countertops, ensuring a seamless fit and clean workspace. It takes on average 3-4 hours to finish for an average sized kitchen. We perform a final quality check to guarantee that your new countertops meet our high standards.
